

Environmental Policy

RGE GROUP is a leading Injection moulding, tool making and design company working primarily in the field of white goods and office chair components. The company supplies products on a worldwide basis and fully understands that our products, processes and human activities have an effect on the depletion of natural resources.

Improving our environment is a key element in our aim to prevent or minimize Pollution through continuous improvement and give environmental consideration when making business decisions

Our environmental policy outlines our commitment to ensure:

- *A framework is established for regularly setting objectives, targets and responsibilities.*
- *Compliance with current legislation, local regulations and standards*
- *Good relations with the community by minimizing any nuisance arising from our activities, personnel or transportation.*
- *Consideration of any environmental impact when designing new products or services.*
- *All personnel and contracted staff have knowledge of environmental aspects through regular feedback*
- *We will actively encourage our suppliers to consider the environmental impacts of their products.*

This will be achieved through our environment management system and project team being robust and active enough to give encouragement and involvement to all personnel and interested parties so that our environmental goals can be met.
