

# Clifton Chair Base

Image shows Clifton chair base fitted with RGE602 castors and a RGE225 gas lift

RGE produces structural chair bases in the UK and the USA for the worldwide office furniture industry. From producing the first structural GFN chair base to the present day, RGE has been the foundation for over 25 million office chairs.

The Clifton base is compatible with all RGE castors, however it is recommended that the castors have a tower size of 38mm or less.

All RGE gas lifts are compatible, although drop through gas lifts in combination with small diameter castors need to be checked for ground clearance.

Delivered on reusable stillages to save waste, environmental damage and reduce costs.

Specification		
<b>Colour</b>	Black	
<b>BIFMA / ANSI Approved</b>	Yes
