

Delanco Chair Base

Image shows Delanco chair base fitted with RGE643 castors and a RGE229 gas lift

The RGE Delanco is a modern design with an ultra slim high arch profile finished with a light surface texture. The Delanco base is ideally suited for use on executive chairs. This base can be supplied with castors pre-fitted reducing your inventory and assembly costs.

The Delanco base is compatible with all RGE castors, however it is recommended that the castors have a tower size of 22mm or less.

All RGE gas lifts are compatible, although drop through gas lifts in combination with small diameter castors need to be checked for ground clearance.

Delivered on reusable stillages to save waste, environmental damage and reduce costs.

Specification
