

Knightsbridge Chair Base

Image shows Knightsbridge chair base fitted with RGE647 castors and a RGE229 gas lift

The RGE Knightsbridge is a top-of-the-range spider base with a modern design and a slim high arch profile, finished with a light surface texture. The Knightsbridge base is ideally suited for use on executive chairs. This base can be supplied with castors pre-fitted reducing your inventory and assembly costs.

The Knightsbridge base is compatible with all RGE castors, however the RGE 647 60mm castor is recommended for use with drop through gas lifts.

Drop through gas lifts in combination with small diameter castors need to be checked for ground clearance.

RGE 707 is a complimentary aluminium version of the same design.

Specification	
Colour	Black
BIFMA / ANSI Approved	Yes
Sizes Available	26"
Part Number	KB26501101
A 'pitch circle diameter'	645mm
