

RGE700 Chair Base

Image shows RGE700 chair base fitted with DRK castors and a RGE221 gas lift

RGE produces structural bases in the UK and the USA for the worldwide office furniture industry. From producing the first structural GFN chair base to the present day, RGE has been the foundation for over 25 million office chairs.

The RGE700 is our smallest base and is designed for display stands and mobile support, and is widely used in the medical world. Adjustable bushes are available for display stand tubes.

The RGE 700 is not recommended for use as an office chair base.
