

Warwick Chair Base

Image shows Warwick chair base fitted with RGE602 castors and a RGE222 gas lift

The RGE Warwick is the classic Nylon base design with unrivalled international popularity. The base can be supplied with castors pre-fitted to reduce your inventory and assembly costs.

The Warwick is compatible with all RGE castors, however it is recommended that the castors have a tower size of 38mm or less.

All RGE gas lifts are compatible, although drop through gas lifts in combination with small diameter castors need to be checked for ground clearance.

Delivered on reusable stillages to save waste, environmental damage and reduce costs.

Specification

Colour	Black
